

The need for greater community outreach, particularly in terms of service and bringing more people into our church, has been expressed by several members of our congregation. More family-oriented activities and increased youth opportunities and involvement have been suggested as one means to this end. Additionally, efforts to attract and sustain a multi-generational membership need to be explored and supported. We will be looking for someone who might be able to provide us with some ideas and leadership in this direction.

Our membership includes people of all ages, and represents well the demographics of the community of Halifax. There is a real challenge in determining, addressing, and sustaining the spiritual, personal, and communal needs of the larger church family while dealing with financial, time, and personnel constraints. We will look to our minister to work closely with church committees and leaders to support continuing efforts in this direction.
